

## EXPERIENCE

### **Carson Architects,** Los Angeles

*A small architecture office specializing in high end residences throughout the LA area.*

ARCHITECTURAL DESIGNER + WEB DESIGNER. Responsibilities include:

- Overseeing projects throughout all phases of design from Conceptual Design to Construction Documents. Extensive knowledge in assembling CD drawings sets for single-family residential projects, and collaborating on CD sets for larger projects. Permitted several projects in L. A. City and L. A. County.
- Design and development of the office website (<http://www.carsonarchitects.com>). Using knowledge of web and graphics to implement and manage various online portfolios for the office.
- Experience in project management- scheduling timetables and deadlines internally and for consultants. Coordination of drawings with Structural, MEP, Landscape, Interior Design, and Lighting consultants.
- Coordination with Contractors throughout the bidding process, and into construction. Familiarity with RFI, SK process.
- Researching and implementing LEED practices and "green" building materials. Familiarity with the LEED certification process.
- Collaborating on establishing the office presentation and renderings standards.

February06 -CURRENT

SUMMER INTERN. Responsibilities included:

- Creating a library of office standard details. Drafting code compliance and construction details and creating a central database for all such details.
- Field measurements and as-built drawings sets.

June05 - September05

### **McAlpine Associates,** New York City

*A small architecture office specializing in high end residences, and some commercial, retail spaces.*

SUMMER INTERN. Responsibilities included:

- Drafting multiple projects through various stages of production.
- Field measurements and as-built drawings sets.
- Office management.
